PROFESSIONAL SUMMARY

Analytical and detail-oriented Computer Science and Business Systems graduate with hands-on experience in SQL Server, Power BI, and Tableau for developing interactive dashboards and optimizing business decisions. Skilled in data modeling, DBMS concepts, and visualization wireframes, with a strong foundation in financial analysis and forecasting. Adept at collaborating with cross-functional teams to translate business requirements into technical solutions.

TECHNICAL SKILLS

Programming: Python | SQL Databases: SQL Server | DBMS

Concepts Visualization: Tableau | Power BI | Excel

Business & Analytics: Data Modeling | Forecasting | Market Research | Financial Analysis

Other: Development Methodology | Stakeholder Collaboration | Dashboard Design

EXPERIENCE

- ➔ **Business and Account Executive | Zomono Kubhta Pvt Ltd** 2025(Jul)– 2025(Nov)
 - Implemented data-driven inventory management strategies, improving stock accuracy by 15% and reducing process bottlenecks for smoother supply chain operations.
 - Developed and automated financial reporting dashboards in Power BI, reducing reporting time by 20% and delivering actionable insights to support strategic decision-making.
- ➔ **Co-Founder | ABHIVRIDHI** 2025(Jan)– 2025(June)
 - Built data models and dashboards in Power BI to monitor user engagement, sales, and market traction.
 - Conducted SQL-based analysis of customer and transaction datasets to identify growth opportunities.
 - Collaborated with stakeholders to define KPIs and translate them into actionable reports
- ➔ **Capital & Research Market Analyst | TRADESHALA** 2024(June)– 2024(Aug)
 - Queried large datasets using SQL to evaluate forex and equity performance metrics.
 - Automated reporting workflows to improve visibility into trading portfolio performance by 15%.
 - Delivered insights via data visualizations that supported strategic trading decisions.
- ➔ **Marketing & Growth Intern | STOCK PE *** 2022(Nov)– 2023(Jan)
 - Designed and tracked KPIs using Excel/Power BI dashboards to analyze engagement drivers.
 - Partnered with cross-functional teams to gather data and build performance reports.
 - Applied SQL and data cleaning to prepare datasets for user growth analysis.

PROJECTS

- **Retail Inventory Optimization Dashboard**
Designed and deployed an interactive Power BI dashboard for a retail store to identify underperforming products occupying valuable shelf space. Integrated sales and inventory data to track slow-moving and dead stock, compare shelf space usage vs. revenue, and recommend product discontinuation or clearance. Reduced average inventory holding by 20% and enabled better product rotation using data-driven insights
- **Stock Price Prediction**
Developed a stock market prediction model using Python and linear regression, leveraging historical data to forecast trends and support data-driven trading decisions.

EDUCATION

Thapar Institute of Engineering and Technology B.E, Computer Science and Business Systems	2025
Government Senior Secondary School, Sohal 12th, Non-Medical	2021
Little Flower Convent School 10th, ICSE	2019

CERTIFICATIONS

POSITION OF RESPONSIBILITY

1. NISM-Series-VIII: Equity Derivatives Certification Examination * 2. Understanding of Financial Markets 3. Recommendation Letter(StockPe)	➤ HEAD VIRSA FEST Promoted to the post of HEAD from Core member with added responsibilities to manage core, team members and coordinated event's workflow. ➤ Executive Committee SATURNALIA One of the biggest Techno Cultural Fest of North India. Managed to conduct the event supervising the team of 50+students. Also, managed the finance department.
